# Metacognition

Miles & Tanny McGregor

I think I can think about thinking!  
Do you understand what I said?  
It's all about metacognition --  
What's going on in my head.

Schema, schema

Schema, schema

What I know

Watch it grow

I can make connections

Meaningful connections

Text to self

Text to text

Text to world

# Determining Importance

Miles & Tanny McGregor

I can read it all  
But I can't remember it all  
I choose what's important  
And single it out

Determine importance  
That's what it's about!

# Questioning

Asking questions

When I read

When I read

When I read

Asking questions

When I read

Before,

During,

and After.

# Visualizing

Make a picture  
in your head  
in your head  
in your head.

Make a picture  
in your head  
Use your senses.

Like a movie  
when you read  
when you read  
when you read.

Like a movie  
when you read  
A mental image.

# Inferring

Do I infer?  
The answer's "yes"

I infer when  
I read text

When I infer,  
it's a smart guess

When I infer,  
my thinking is best

I infer what  
happens next

I infer when  
I read text

# Synthesizing

Synthesize  
Synthesize

Take what you know  
And see it grow.

You put all your thinking together,  
You see

Your thinking is changing  
And that's the key

And this is the  
queen of all strategies  
Just synthesize!
